Jennifer – Since this is something we could likely answer in HQ, do you want to work on a response?

Or should Monica route through OW?

Thank you, Liz, I really appreciate it. Also, can you confirm whether this 2010 water data is

the latest you have for Colorado?

http://iaspub.epa.gov/waters10/attains_state.control?p_state=CO#tmdl_by_pollutant

It's supposed to be released in two-year cycles, but we don't see anything beyond 2010 there.

Thanks,

Amy

Sorry, I'm told they won't have a dial-in, but we'll get a recording and readout sent.

Sadly, our reporter in Colorado is six hours away and can't make this. Any chance you guys could create a conference call so reporters not present could at least listen in? (I won't even be greedy and ask for the ability to ask questions!).

Thanks much,

Amy
